

Level Designer Junior (Family Island)

Location: Vilnius, Lithuania

We at Family Island want to make even more brilliant and memorable updates and are currently looking for Content Designers and Level Designers (Junior level) to join our team.

If you're dreaming about making games and getting positive feedback from the players, send us your CV

What you will be doing:

- Create and present concepts for updates together with the narrative designer
- Draw up documentation
- Develop game levels in our own editor
- Set up level balance
- Control level quality
- Assign tasks to artists and programmers
- Take part in creating new features and elaborating the tools

Your expertise:

- A desire to make games heeding to the players' feedback
- Understanding of the principles of mobile game development
- Good team-player
- Result-oriented
- Ability to articulate and communicate ideas clearly
- Operational thinking
- Passion for games
- English: B1-B2 level

Nice to have:

- Portfolio of your projects. With your application, please, attach links to the games in stores or on Google Drive with your works: texts, articles, screenshots of levels
- Participation in GameDev activities (streaming, game reviews, D&D, hackathons, managing or moderating a game community, etc.);
- Experience working with Unity, UE4, Game Maker and other game engines

What we feel is important to say:

- We strive for cooperation with those who are prepared to contribute to the quality of our products, look for points of growth, show initiative and take responsibility
- We are all for the result and not the number of hours spent in the office, so we offer flexible hours and the option to work remotely.
- We take care of our employees:
 - proactively review salaries based on your competence growth and changes in the market;
 - annually pay a significant bonus to each employee proportionally to their level of responsibility and contribution to our success;
 - help you to save time dealing with healthcare issues by offering medical insurance;
 - support your learning and development initiatives: a corporate program with SkyEng, we contribute to paying your tuition fees.

Gross salary 730 EUR gross/month. We are open to discuss a different salary based on your competences and skills.

If you feel you've got what it takes, get in touch - let's meet, talk and hear each other!
